5. About 150 troops carrying or pushing five pontoons and planks were seen at the former hoss-lau-deinsdorf engineer training field on 27 april 1950. He motor vehicles were observed (1).

The units returned to their military most on 18 April 1950, probably upon completion of small-scale exercises at the albe hiver. The motorized column of the same regiment went toward Berlin on the lagdeburg-berlin autobahn on 17 April 1950 (2). The report indicates that component units of the 36th Fon Lridge megt were at the post on 27 April 1950.

25X1A

2 Comment: The information indicates that the Dessau-Rosslau units of the 7th Gds Tank Div left for troop training grounds, probably Werder-Larkendorf. The information is confirmed by other reports st time that elements of the 7th Gds Tank Div moved to the verder-Larkendorf troop training area as they did in 1949 (4).
